29 October 1965

MEMORANDUM FOR: Chief, Production Services Division, NPIC

SUBJECT: Proposed Visit [REDACTED]

X1 1. We have been informed that the "breadboard" Briefing Print Enlarger [REDACTED] will be ready for demonstration and familiarization tests about the third week of November. The next phase of this development would be the design and fabrication of a prototype model.

X1 2. It is planned that [REDACTED] Contract Manager, and [REDACTED] Technical Monitor for the Briefing Print Enlarger Project, will go to [REDACTED] the afternoon of 14 November 1965 and stay through 16 November for review of the development project; they will return to Washington the evening of 16 November.

X1 3. Since the next phase of this task is the development of a prototype model at considerable cost, it is requested that appropriate representatives of your division accompany our people in their review of the breadboard device. It is suggested that you consider leaving a man at the [REDACTED] plant for a longer period for more extensive testing of the item.

[REDACTED]
Colonel, USAF
Assistant for Plans and Development

Distribution:

Original and 1 - Addressee

- 1 - Project File/DB
- 1 - Chrono/DB
- 1 - Chrono/P&DS
